Visual Dictionary Project

For this project you will illustrate a word from the dictionary into a Photoshop picture.

Part A: The word

In class you will select a describing word from the dictionary to illustrate using Photoshop.

Part B: Creating the Illustration
- Your illustration needs to be 9 inches wide by 6 inches in height.
- Images from the Internet will be used along with Photoshop techniques learned in class to manipulate the images to your definition. At **least 10 different techniques** need to be used in the picture. (Ex. You may not go to the adjustments/filter panel and use them all from there)
- The **word** and the **written** definition needs to be included on the illustration somewhat visible so it can be read.
- You will need to think outside the box and figure out how you want your images used to express the word and the definition that you chose.

Part C: Describing your Illustration

In a one page Word document (DS, Times New Roman font, 12pt, and 1" side margins), describe your illustration by answering the following questions:
> 1. What is the first thing that gets your attention about this illustration?
> 2. How does the imagery enhance the message?
> 3. Is the placement of the images pleasing to the eye?
>> a. Why?
>> b. **Explain all the effects** that were used
> 4. What do you think about your illustration – anything you would do differently?

Submitting the project to Schoology -
1. Upload the .psd file,
2. Upload the .jpg file
3. Upload the word file

Due Date:
Seniors - Wednesday, May 8, 2019
Underclassman - Wednesday, May 22, 2019

Part A	up to 5 points -selecting a word that you can utilize to create the illustration
