Website Project Grade Sheet

- (5pt.) _____ Homepage (named: index) with a navigation bar that links all your pages together (spry widget or develop rollovers in Fireworks or a template for the navigation bar)
- (3pt.) _____ Create a folder for your images and CSS styles to keep them organized.
--An external CSS style sheet needs to be created named **main_styles.css**.
- (2pt.) _____ Create your own content for your pages.
You may use the Internet for some of the content, but the **websites will need to be cited**.
- (10pt.) _____ Include approximately 10-15 images. A majority need to be your own images.
If you use images from the Internet that **needs to be cited** somewhere in your website.
- (5pt.) _____ A table with at least 3 rows and 3 columns of information and make it look visually appealing with borders; cell alignment; maybe some color. May include more than one table.
- (8pt.) _____ Create a spry accordion using at least 3 pictures & text to describe them (colored panels, width)
- (8pt.) _____ Create a spry tabbed panel (you decide your content – at least 3-4 panels colored, change width)
- (6pt.) _____ Include one form page that makes sense with your topic with **at least 6** different buttons (Ex. if you use 3 radio buttons that is considered one set) and you will need 5 more buttons.
Form elements needed: radio, checkboxes, list menu, text field, text area and submit button
- (5pt.) _____ Create a confirmation page for the submit button.
Add **text** on the page, a **picture** and a **background** color and make it look nice and link it to the button.
- (8pt.) _____ Create an organized (table) citations page for content and images used or cite at the bottom of each webpage. Link up all of your sources to the websites.

Other included criteria:

- (2pt.) _____ Add 2 keywords that pertain to your website topic
- (3pt.) _____ Add page titles on every page
- (2pt.) _____ One outside link on text that opens in a new window
- (2pt.) _____ One outside link on a picture that opens in a new window
- (1pt.) _____ One horizontal line
- (4pt.) _____ Two hotspots on one image map or one hotspot on two different image maps
(linked to either a web page or two in your site or two outside websites– the links must pertain to your topic and open in a new window)
- (2pt.) _____ One bulleted list including 4-5 bullets (Can be ordered or unordered)
- (2pt.) _____ Create 2-3 anchors to sections of info. on one of the webpages (put these together on one page)
- (2pt.) _____ Background colors and font colors (make sure they are professional looking)
- (20pt.) _____ Website is designed in a professional manner with the content and organized.
- (10pt.) _____ Storyboard approved

Website project grade: _____
